Osh

Subject: Harassment faced by Indian students in Osh State University

Dear Sir,

As you are aware there are a large number of Indian students pursuing higher studies in your esteemed university. It has been brought to the notice of this Embassy that the students are troubled by the university authorities. They have also generally complained that local police harass them and take away their money. Because of this, the students feel unsafe and have written to us seeking our intervention. It looks like that the students are apprehensive of approaching the university authorities directly to redress their grievances.

We are advising the students to bring to our notice the specific cases of harassment they have faced which will be passed on to you for appropriate action at your end. In the meanwhile you are requested to look into the general complaints made by the students and take immediate remedial action.

With regards,

Yours sincerely,

(Kanti Raman)
Second Secretary &
Head of Chancery
