

“LMU - INDIAN PARENTS ASSOCIATION”

Sub:- AN APPEAL TO ALL THE PARENTS OF INDIAN STUDENTS AT LMU — CHINA.

15th November, 2014

Dear Brothers & Sisters,

As a parent the most precious belonging to us are our children. With the thought of taking active participation in the progress of our children studying medicine in Liaoning Medical University, China, in the month of August'2013, a parent association was formed by few of us with the initiation of the university's representative consultancy agency i.e., M/s. Medico Abroad, Hyderabad. Subsequently, in August'2014 during the visit of the Dean of the university to India, some of us interacted with him and shared our viewpoints, resulting in a landmark achievement of applause and instant approval by the Dean. In further development, in an emergency situation, on 09.11.2014 we sat together at Hyderabad and decided to register our association. This Association's main work is to act like a bridge between our students and university authorities / Medico abroad Agency. With a few members of association it cannot be completed. Hence we request all the parents, whoever is interested, to join in this association to make it a grand success and serve the very purpose of its formation.

As you would agree with us, all of us take pride to tell everyone that our child is studying MBBS in China. All the parents sent their children with **TRUST** on them and gave the **FREEDOM** to achieve a career and reach their **GOALS**, though facing a lot of financial problems.

But in this emergency meeting on 09.11.2014 at Hyderabad, we were very much disturbed on hearing of certain untoward incidents that have occurred knowingly or unknowingly by our children. Among those, the following are few.

- *One student riding a motorbike unauthorized had hit and injured a Chinese person and **REMANDED** for punishment.*
- *A few students faced **THEFT CHARGE** of certain fruits/vegetables, which put to shame all of the parents.*
- *Certain senior students are indulging in **RAGGING**.*
- ***LATE NIGHT PARTIES** with heavy expenditure outside university premises.*

- Students of **OPPOSITE GENDER** allowing in their hostel rooms.

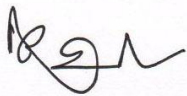

In this connection, an appeal was made by our association to all the children on those incidents, that damages the image of not only the individual, it would break the heart of the family members. Though all of us differ in our language / living area such like AP, Telangana, Tamilnadu, Kerala, Assam, Bihar, Bengal, Rajasthan etc., but remember that all of us are INDIANS. If anything happens to any one child, as parents all of us suffer a lot, just that the difference may vary in percentage of feel. Particular child parents may suffer 100% and others may 10%. **Its the fact.** Hope all of you agree with this.

As such, we have decided to prevent such instances in future, so that it is highly essential to form and strengthen this Association to regulate the students on unauthorized activities and to make them concentrate on studies. It is our primordial duty and responsibility to save the dignity and decorum of ourselves, our children as well as our country. Few of us set the ball rolling and to strengthen this body, we heartily welcome all interested parents to join us and extend support, co-operation and co-ordination to maintain the discipline among the children.

Any suggestions and comments may be sent to the Association at official e-mail Id: "lmupc.ma@gmail.com".

Thanking you for your understanding and support.

Yours friendly,

R. BHASKARA RAO
President

C. V. SURENDRA
Vice President

S. NARENDER
Secretary

Mrs. V. PRIYA
Joint Secretary
